

# Okaloosa ONLINE

When you choose Okaloosa Online featuring the Calvert curriculum, you receive the highest quality, most comprehensive curriculum available. Educating your child outside of a traditional classroom gives you more choice, more flexibility, and the opportunity to be directly involved in your child's education.

**Okaloosa Online provides everything you need to make your child's education a success.**

## Lesson Manuals

Complete daily plans for all subjects

## Online Resources

Activities, videos, and websites integrated into lessons

## Accredited Curriculum

A rigorous, classic education

## Live Support

Support from professional educators from enrollment to completion

CALVERT  
EDUCATION

## The Calvert Curriculum

The Calvert curriculum combines both traditional printed textbooks and lesson manuals with online learning.

The printed Calvert Lesson Manual is designed with step-by-step daily lesson plans. The online version has links to interactive games, practice tests, instructional videos, and daily Checkpoints. These extras enhance and reinforce a child's learning experience and help measure content mastery.

## Here is a snapshot of what our students will learn this year:

- K** The Math course introduces fractions, shapes and time. Students are introduced to vowel and consonant sounds. They also paint and complete crafts to develop fine-motor skills.
- 1** In Science students explore living things, earth, and weather. They also are introduced to the five themes of geography.
- 2** Phonics storybooks and reading anthologies reinforce word analysis and develop comprehension skills. Punctuation and spelling rules are introduced.
- 3** Students are given a view of history and classic literature. Math will challenge them with multiplication and division.
- 4** Students are introduced to spreadsheets, maps, globes and graphs. They also use the writing process to develop original compositions.
- 5** Art History is presented in *A Child's History of Art: Painting* by Virgil Hillyer, founder of Calvert School. In Science, animal and plant kingdoms are explored.
