Kelli Sanders, Principal

Principal's Message

What a great and different school year this has been! It is hard to believe that we only have a month left! This school year has brought challenges and made us adapt and change our mindsets about many things. Our teachers, students, and parents have faced challenges with grace and compassion. We look forward to finishing this year strong with our iReady testing and our FSA testing. Some of our students have completed these tasks, while others are still waiting to "show what they know". Field Day will be here soon and we can't wait to welcome you back to our campus. You have been missed!

If you have been in the car line or driven by Antioch, you have noticed that we are beginning to update our safety with the addition of a new eight foot fence. All fencing will be upgraded to an eight-foot height over the next week or so. We are looking forward to the updates to our front entry and office coming soon. I am also glad to announce that we will be adding a bus stop at Addison Place for those students and those that live on Lillian Way. This will begin Monday and those students will no longer have to walk to school.

Antioch has the BEST teachers, students and staff. I am so proud to be the principal at Antioch. I hope that we all have a great end to this year and a safe and happy summer.

Kelli Sanders

Note from Our Counselor, Connie Rice:

Now that the school year is almost over, reinforce what you and your child have worked on over the school year whether it be good work habits, being a good friend, or good classroom behavior. Talk with your child right after school is out about how they thought the school year went and what they learned throughout the year. Keep some routines and patterns throughout the summer so the start of school won't be a big change for everyone when routines and patterns become the norm again. When it's time for school to start again next year, take some time to plan for what they want to accomplish in the upcoming school year. That accomplishment could be academic, social or behavioral. When goals are identified and reviewed, they are easier to become reality.

Have a great summer!

Connie Rice
