

## School Health Update – March 8, 2020

Good afternoon, this is school health update from the Okaloosa County School District. We continue to work directly with the Department of Health and receive regular updates from them regarding Coronavirus. We have been advised that the risk of infection remains low for Okaloosa County residents. As a result of this information, Okaloosa schools are scheduled to remain open this week. Again, Okaloosa schools will be open this week. We will continue to provide updates through callouts and social media when they become available.

Please be advised that anyone exhibiting symptoms of fever, cough or sore throat should stay at home.

As a reminder, this Friday, March 13 begins the Spring Break holiday for students. Students will return from Spring Break on Tuesday, March 24.
