

Hi everyone!

This is a week of new beginnings as Okaloosa County Schools begins the process of educating our students at home. Please know that we are here to support you in every way to make this process go as smoothly as possible. As you begin navigating how to teach remotely, you may find that some students would benefit from additional online instruction. To best meet this need, we suggest using ZOOM. ZOOM is an online group meeting place that is similar to FaceTime, but with several participants and “teacher controls”. It affords teachers the ability to provide small group instruction from the comfort of their own home. Christin Keeney, who is our secondary math coach, will be hosting ZOOM trainings starting March 25. She is our resident guru on the program and has utilized it in her classroom last year. To learn more about this program, please attend one of the virtual meetings below or click on the link to watch a pre-recorded tutorial session. We have also included a video on how to post Zoom recordings online.

## Live Zoom Training hosted by Christin Keeney
