

Reproductive Health and Disease Education  
Parent Notification of Standards and Materials  
2021-22

The following Florida Next Generation Sunshine State Standards relating to reproductive health and disease are taught in Biology. **Note: Biology is a required course with a state end of course exam (EOC). Questions on these standards will be assessed on the EOC.**

Course Number: 2000310 (regular), 2000320 (honors), or 2000800 (pre-IB)

**SC.912.L.16.13**

Describe the basic anatomy and physiology of the human reproductive system. Describe the process of human development from fertilization to birth and major changes that occur in each trimester of pregnancy.

**SC.912.L.14.52**

Explain the basic functions of the human immune system, including specific and nonspecific immune response, vaccines, and antibiotics.

**HE.912.C.1.3**

Evaluate how environment and personal health are interrelated.

**HE.912.C.1.5**

Analyze strategies for prevention, detection, and treatment of communicable and chronic diseases.
