

Reproductive Health and Disease Education
 Reproductive Health and Disease Education Student Exemption Form
 2021-22

Below is a list of courses offered in the Okaloosa County School District that contain reproductive health and disease standards, denoted if it requires a state, national or certification exam. Textbooks and curriculum materials for courses are listed on the district website's Reproductive Health and Disease page.

Regular Education Courses	Career Technical Education (CTE) Courses
Middle Grades Life Science* Biology 1* (Graduation Requirement) Anatomy and Physiology	8400320: Medical Skills and Services* 8417100: Health Science Anatomy and Physiology* 8417131: Allied Health Assistant 3* 8417171: Emergency Medical Responder 3* 8708130: Medical Interventions*
*Course requires a state, national or certification exam	

Parents: Please submit completed form to the front office of student's school of enrollment.

I, _____ (parent/guardian) request that my child, _____ be excused from participating in reproductive health and disease instruction in _____ class.

I understand I am requesting the school to excuse my child from reproductive health and disease curriculum required by course standards and will be assessed on state, national or certification exams. I further understand that instead of receiving instruction in this unit of reproductive health and disease education, my child will be moved to another setting when the curriculum is being covered in the classroom. The student will be required to complete an alternate assignment deemed an appropriate substitution.
