## Boost Your Scores with ePrep

Video-based courses are now available through your library's website.

Practice under test conditions—and receive additional support from expert instructors via informative video tutorials. All courses include a vocabulary builder, and the ePrep Analytics monitors your progress in order to recommend subject matter and strategy lessons for you to review. You also receive e-mail reminders to keep you on track, while the Parental Support Center keeps your parents up-to-date and in the loop.

Higher SAT and ACT scores improve your chances for getting into the college of your choice and for receiving merit-based scholarships.

ePrep is free to use through your public library, making it a sensible alternative to ineffective text-based courses—which can cost thousands of dollars.

Look for  **ePrep**<sup>®</sup>  
on your library's website!
