

LEWIS SCHOOL

“Light Up The Night”

WHO WE ARE

- Lewis School came about when Addie R. Lewis Middle School and Valparaiso Elementary School merged in the 2010- 2011 school year. Here at Lewis School the administration and our highly trained staff work to achieve excellence in our students' academics. We currently teach students ranging from kindergarten to eighth grade.
- Built in 1971
- Our mascot is the Falcon
- 14 Sports Teams
- A+ rated by Department of Education for 19 straight years
- Families mainly comprised of residents, servicemen and women from Eglin Air Force Base, Valparaiso and Niceville

WE NEED YOUR HELP!

- Lewis School has a sports field directly across the street from its main campus that has been used for practices throughout the years. We're asking you to help us by sponsoring and/or donating money to help fund lights, to be installed, on our field- through our "Light Up The Night" initiative.
- Lighting our field will now enable countless families (and generations to come) enjoy being present at games and enjoy the pride of paying on their own field. "Light Up The Night" will also provide local athletic programs access to additional fields, helping to accommodate our growing community sports population at a reasonable rate.
- Many families from Eglin Air Force Base, Valparaiso and Niceville work hard days and then have to travel to Niceville High School to see their kids playing sports wearing the green and yellow colors of the Lewis uniform. Throughout Lewis' history, many parents and family members have an additional commute to Niceville High for games and there have been priceless moments lost due to the additional distance and time it takes to make it to their students' games.

SPONSORSHIP OPPORTUNITIES

Our Lewis Falcon family is now organizing – reaching out to its generations of alumni and asking community partners to help us “Light Up The Night”
