NEW ARRIVAL & DISMISSAL PROCEDURES

For safety of students and visitors, the arrival and dismissal procedures at Meigs have changed for the upcoming school year. Upon arrival at school, all students must have a temperature check with a touchless thermometer prior to entry on campus. Any student arriving on campus before 6:45 AM will not be supervised or permitted to enter campus.

BUS RIDER ARRIVAL PROCEDURE - HORSESHOE AREA

- Between 6:45 AM - 7:15 AM, ONLY buses will enter the horseshoe to drop-off students.
- Temperatures will be taken as students exit the bus with a touchless thermometer.
- Any student with a temperature of 100.4 or higher will be given a mask and report to the clinic for further evaluation by the health technician.
- If a student has become excessively heated on the bus resulting in an elevated temperature reading, the student will be taken to an air conditioned area and given time to cool down before a re-check.

CAR RIDER ARRIVAL PROCEDURE - WEST SIDE RAMP

- The car line for drop-off will be located on the ramp along the west side of campus.
- The gate for the car line will open beginning at 6:45 AM.
- Staff members will be located along the ramp to do temperature checks for all students.
- Parents must wait for student temperature reading to be completed.
- Students who have a temperature of 100.4 or higher will not be permitted to stay on campus.
- When exiting the car, students should always walk in front of their own car to get to the ramp.
- In order to keep students and staff safe, there will be only one lane for drop off. Parents may use the right side to exit the car line and proceed to the south gate to Shalimar Drive.

WALKER ARRIVAL PROCEDURE

- Walkers will enter gate closest to new front office complex beside the Meigs Science Lab.
- Temperatures will be taken with a touchless thermometer.
• Any student with a temperature of 100.4 or higher will be given a mask and report to the clinic for further evaluation by the health technician.
• If a student has become excessively heated on their walk resulting in an elevated temperature reading, the student will be taken to an air conditioned area and given time to cool down before a re-check.
• Once on campus, students eating breakfast will report to the café. Students not eating breakfast will report directly to their 1st block class.

AFTERNOON DISMISSAL

• Bus riders, car riders, and walkers will have slightly staggered dismissal times to prevent congestion on the ramps.
• Busses will dismiss first to load in the horseshoe. Masks will be required on the bus.
• No cars will be permitted in the horseshoe from 1:30 – 2:15 PM. Parents needing to visit office at dismissal time may park in lot across street and use crosswalk to cross Richbourg Avenue.
• Car riders and walkers will be dismissed shortly after bus riders.
• During the first days of school, car riders will receive a Meigs Car-Rider Tag to display on dashboard for pick-up. This new procedure will aide in calling for students whose ride is waiting.
• The gate to the car line will open at 1:35 PM. Students will practice social distancing while waiting for ride.

Any time a school implements a new procedure for arrival and dismissal, lines may take longer in the beginning. Please be patient these first days as all staff, students, and parents adapt to the new procedures. If you have any questions, please contact us at 850-833-4301.
