

Dear Parent or Guardian,

The USDA has recently approved all K-12 students to receive free meals through December 22, 2020. This includes both breakfast and lunch. We offer hot and cold options at both meals. In order for the meal to qualify as free to your student, a fruit and/or vegetable must be taken along with at least two other items. If you have any questions regarding the free meal option for your student, please feel free to contact your school's cafeteria manager, or the school food service office at 850-301-3020. We are happy to answer any questions you may have. Thank you.
